# Scenario

You are a businessman trying to hire new employees and want to start going to job fairs to find them. You would like to check out the app called Event check in.

Task 1: Find a job fair in your area and RSVP for it.

Task 2: Check into an Event

Task 3: Check out the heatmaps for the most popular booths at the event

# Things to add/change

Ability to edit user profile
Ability to share events
Be able to link other account to your profile like linkedin and other professional websites

# Good things

The heat maps
How easy it is to check into events
Sign up process is easy
